

Health Professionals Endorse Isagenix

Dr. Brandon Holmes ~ Chiropractor, California

"I was introduced to Isagenix from a fellow doctor. Knowing how important nutritional cleansing is for the body, I decided to try Isagenix. I also encouraged my parents to cleanse as well. We all did a 9-day cleanse, and what a difference! Our energy levels were high, we all felt great, and collectively lost 34 lbs! I now encourage my patients to cleanse as part of a healthy lifestyle. Isagenix is a wonderful product, and we are happy to be just one of the many success stories!"

Dr. Gary Yeager ~ Chiropractor, California

"I was introduced to Isagenix about 2 years ago. As a Chiropractor (15 yrs) and weightlifter (25 yrs), I am always being asked what is a good protein powder to use, how can I lose weight, what should I eat, etc. I started to do Nutrition Response Testing in my office, which really gives me the ability to know if something is good for my patients, or not and consistently (8 out of 10) patients have tested well with the Isagenix products, especially the protein/meal replacements where other products have consistently failed. I use and recommend the products without reservation and know that I am giving them something that is going to help improve their overall health."

DR. ERLINDA CACHOLA ~ Internal Medicine, Hawaii

"We live in a toxic world. We have toxins in the air, water, food and the chemicals that we come into contact with in our activities of daily living. Obesity, nutritional deficiency and stress are the other major health issues in the world today. I have been a Medical Doctor in private practice of Internal Medicine for 31 years. Many of my patients are so stressed out they cannot sleep or function well. I learned about a system of products that address toxicity, nutritional deficiency, obesity and stress. My husband and I have been using these products for almost four years now. We have experienced increased energy, better mental focus, stress relief and improvement in our overall health. I also got rid of my daily tension headaches. We have been recommending these products to our friends and patients and will continue using this system to optimize our health."

DR. ROBERT SCHIFF ~ Internal Medicine, Hawaii

"I am so pleased with the results I've seen with Isagenix with myself and especially with many of my patients. The program works, is easy to follow, and reasonably priced. Besides the weight loss, I have been very happy and even excited to see the significant improvement in my patients, as they continue to lose weight, reduce their carbohydrate cravings, and take a greater interest in their health, including starting to exercise. I can't tell you what it means to me to have a method of helping to get or keep people healthy without prescription medications."

Weight-loss results may vary. In a recent study, participants averaged a weight loss of 7 pounds at the completion of their first Isagenix 9 Day Program. Always consult your physician before making any dietary changes or starting any nutrition, weight or exercise program. These statements have not been evaluated by the Food and Drug Administration.
