

## This is My ISAGENIX Weight Loss Story

In September 2002, a friend told me about a program that was changing people's health. She said it was a Cleansing System that was Healthy, Replenishing, and Revitalizing ~ and ~ as a side benefit ~ people were safely losing weight.

She had been struggling with excess weight for years and she said to me - "Kim, I feel like I've finally got my life back". She went on to tell me about a lot of other benefits that people were having. So I thought I would give it a try.

I lost 50 pounds in three months and went on to lose 125 lbs. in 11 months. **Now I have lost a total of 147 pounds ! Isagenix** has totally changed my life - more than anyone will ever know.

I worked at Lane Bryant (a plus size store). My goal was to get in the smallest size. I started out barely fitting into the largest size - some of the pants were too small. I am now too small to fit into their clothes. **I have lost a total of 9 sizes.**

**I am now exactly half of my weight from when I started !**

Throughout the years, I have tried many diets - Weight Watchers, Atkins, L.A. Weight Loss . . . and yes I even did the Phen Phen thing. I would lose a little with each of them, only to gain it back and then some.

Isagenix has helped me to lose weight and to keep it off. I feel great. Not only has it changed me physically, but it has changed me mentally and emotionally. **This is the smallest I have been in 23 years - my entire adult life!** I can see and feel bones. It is easier to do things and I am now able to do things I haven't done in years – and people treat me very differently now. I made a list of things that have changed since I have lost weight – But best of all is my relationship with my husband. Because I feel better about myself, I allow him to love me. And my love for him has grown so much. Because of his love and support, I was able to succeed.
